Full Stack Web Developer

Full Stack Web Developer | Software Engineer

As a full-stack web developer with a year's experience, I've refined my expertise in both client-side and server-side coding. My enthusiasm is rooted in crafting dynamic web applications with cutting-edge tools like JavaScript, React, Node.js, and Express. I've been actively involved in diverse projects, working alongside multidisciplinary teams to produce top-tier digital solutions.

Experience

Full-Stack Web/Application Developer | Freelance August 2023 - Present

- Engineered and upheld user interfaces leveraging React.js.
- Executed adaptive designs utilizing JavaScript, HTML, CSS, Media Query, and Bootstrap.
